Here's Why Calico Cats Are the Coolest " Meowingtons

TIL almost all calico cats are female. The gene for coat color is on the female (X) chromosome. To get a calico coat, a cat must have a black gene from one parent and an orange gene from the other parent, resulting in all XX females. Sometimes a male calico is born who is XXY, but they're sterile. (readersdigest.ca)

TIL almost all calico cats are female. The gene for coat

Letters From A Cat (1879) " The Public Domain Review

Names of famous calico cats through time and literature. Pretty names because they are 'pretty'. Original names because they are quite special and the Japanese people consider them lucky (Maneki-neko). Names of cats that have gone down in the history of cats - that would make great names for a calico cat.

Great Names for a Calico Cat | PetHelpful

Calico cats are very unique cats, and if you own one as a pet, then you need to think of a good and suitable name for it. This article provides a list of unique calico cat names for both males and females. Although male calicos are rare, they too need a special name.

Calico Cat Names - CatAppy

Ordinarily, male cats have XY sex chromosomes, while females have XX. The X chromosomes carry the genes for coat colours. Therefore, female cats inherit their coat colour from both their queens (XX) and their toms (XY). To create a calico (or tortoise-shell) pattern, one of the X chromosomes must carry the black gene and the other the orange gene.

Ask the Vet: Why Are All Calico Cats Female?

Calico cats have arguably one of the most beautiful coats in all of catdom. Many novice cat owners believe that the term Calico is used to describe a breed, but it is actually a coat color that can be found in many different breeds from the Sphynx to the Cornish Rex to the Munchkin.

2018 Official Letter Format - Fillable, Printable PDF

So a male cat can never be calico (torties, however, are still possible). Just to review, supposing a cat had the alleles, PpBbOo (this is a female), then it will most likely have multiple spots of white, black and orange fur, therefore making her a calico. If a cat had PPBbOo, then the cat will be completely white.
