Portable Document Format (PDF) is a file format used to present and exchange documents reliably, independent of software, hardware, or operating system. Invented by Adobe, PDF is now an open standard maintained by the International Organization for Standardization (ISO).

### **What is PDF? Adobe Portable Document Format - Adobe Acrobat DC**

If you need to view a PDF file just once, it's usually easiest to open it in your web browser. If you need to access the PDF later, you'll want to save a copy to your computer. This process will vary depending on your web browser, but in the example below the Save PDF button can be found near the upper-right corner.
